## Music is an essential part of early childhood development

Learning an instrument means learning for life. Making music in kindergarten, or at home at an early age, makes it easier for children to learn a new instrument later on. NINO® Percussion gives children the possibility to make their first contact with musical instruments, starting at an early age of 3 years.

Early childhood development includes encouraging children to live out their natural musicality. Playing an instrument helps them to gain a bunch of new skills, such as hand-eye coordination, fine and gross motor control, concentration, and of course a sense of rhythm.

NINO® Percussion specialized on rhythm, shaker, and classroom sets for musical programmes in kindergarten, schools, and other educational institutions. Those sets are flexibly combinable. The coloured buttons allow you to learn about the group size per set:

**Small groups: max. 6 kids**

**Medium-sized groups: max. 16 kids**

**Large groups: more than 16 kids**

NINO® Percussion hand percussion, drum circle and sound instruments are instruments for the whole family. They look good in the living or the children's room, are easy to storage, and most of them can be space-sparingly taken on a family trip. Nowadays, there are tons of good books and tutorials, that allow parents to easily learn an instrument with their children.
